

Care Homes, NHS and Hospitals

Whatever commercial laundry products and services you are looking for, you will find it at JTM Service.

Green Clean Washing

Laundry for Healthcare

It's important to take real care when washing linen and clothes in a healthcare environment. You want great wash performance but you also need to make sure that you are adhering to WRAS guidelines as well as minimum care standards in the NHS HSG (95)18.

Which is why all the washing machines we supply to the healthcare sector will make sure that you are conforming to these standards and keep your laundry room safe and clean.

Laundry Solutions from JTM

- Get disinfection washes at high temperatures to kill superbugs as well as disinfecting washes at 30°C with our specialist Fabrix detergent.
- Use laundry trolleys that rise as laundry is removed, reducing strains on backs and knees.
- Improve the efficiency washes with programmes that reduce energy costs and detergent use.
- Reduce cross infection with our unique sterile air purifier as well as lidded laundry trolleys that keep soiled linen and airborne bacteria and allow hand free loading into machines.

Laundry Products
