## Why Choose Miele Commercial?

Miele are well known for producing exceptional commercial appliances, from washing machines to tumble dryers. Ironers and dishwashing equipment. They are the number one choice for businesses and organisations as their appliances have been built to last and have been tested for 20 years use.

### Washing machines

- Have been designed to be as efficient as possible and minimise water, heat and detergent use to give outstanding wash results.
- Have programmable controls which allow you to take control of the wash programme and set it exactly to suit your needs

### Tumble dryers

Tumble dryers that have specialised controls that sense moisture levels and reduce drying times, including a countdown indicator and drum lighting so you can see all the items inside

### Rotary irons

Rotary irons in range of sizes to finish your laundry perfectly, in half the time it takes to iron them traditionally

### Commercial dishwashers

Commercial dishwashers that have large capacities and quick energy efficient wash cycles that can clean items in as little as 6 minutes with a 85° final rinse temperature which ensures a great finish. Whatever Miele commercial appliance you choose, you can be assured that it give you great results whether you are washing, drying or ironing.
