

# Commercial Washing Machines

Whatever type of commercial or industrial washing machine you need, you will find it at JTM Service.

## Commercial Washing Machine

We have a large range of quality washing machines that will suit your organisation, whether you are a care home or a housing association we will find you the right machine to meet your specific requirements

## Leading Manufacturers

We work with the all the leading manufacturers of commercial washing machines, such as Miele and Girbau.

So whether you need an energy efficient laundry solution or you need to wash large volumes in a care home, hotel, hospital or veterinary practice, we will help you select the most appropriate washing machine.

## Why Use a Commercial Machine?

- Built for frequent, long term use
- Drum size from 5kg to 30kg to allow for efficient washing of larger load and materials
- Great range of programmes and technology to give outstanding wash performance
- Energy efficient programmes to reduce cost per wash
- Disinfection washes to reduce infection rates in a healthcare setting
- Automatic dosing of detergents to get great wash results and reduce detergent usage and costs
- Bespoke programme settings so you can wash your items at a temperature, rinse and spin speed to suit your needs
