

## JTM SERVICE - IRONING SYSTEMS

Ironing can take up valuable time and in a busy care home, hotel or hospital laundry, the volumes you need to iron mean that you need an ironing system that can provide regular consistent results and speed up productivity.

At JTM we have a range of ironing systems that include rotary ironers, laundry presses and ironing tables for hand ironing.

### ROTARY IRONERS

Rotary ironers are ideal for processing flat work e.g. sheets, pillow slips, table linen, etc quickly and efficiently to a high standard of finish. The size you required depends on the size of the items that you wish to iron. So if you just want to iron table cloths and pillow slips then the Miele HM16-80 will be ideal. However if you have a large volume of sheets and larger items then the Miele HM50-175 will be more suitable. The table below shows the range of Miele ironers available so you can select the one which is most appropriate for your needs.

| MAKE  | MODEL    | ROLLER LENGTH MM | ROLLER DIAMETER MM | HEATING  | OUTPUT                              |
|-------|----------|------------------|--------------------|----------|-------------------------------------|
| Miele | HM16-80  | 830              | 160                | Electric |                                     |
| Miele | HM21-100 | 1005             | 210                | Electric | 23kg/hr with 15% residual moisture  |
| Miele | HM21-140 | 1395             | 210                | Electric | 27kg/hr with 25% residual moisture  |
| Miele | HM5316   | 1650             | 250                | Electric | 47kg /hr with 25% residual moisture |
| Miele | HM50-175 | 2040             | 500                | Electric | 80kg/hr with 46% residual moisture  |

### LAUNDRY PRESSES

Laundry presses are suitable for ironing personal clothing and small amounts of flat work. The JTM Blanca Press is one of the best laundry presses on the market; it is reliable and can be operated while sitting down.

The press is very efficient as sheets, tablecloths and napkins can be folded and ironed up to four layers at a time. In addition shirts, trousers, blouses and other personal clothing items can be pressed in half the time of normal hand ironing.

### **Laundry Press Details**
