

# Animal Care

Whatever commercial laundry products and services you are looking for, you will find it at JTM Service.

*Green Clean Washing*

## Laundry Care For Animals

Whether you own a veterinary practice, livery, a dog grooming business, cattery or kennels, you all have one thing in common; you need to keep your blankets, rugs, and bedding clean and free from disease for the animals you care for.

## Deep Effective Cleaning

The best way to achieve great cleaning results is to select the right washing machine which will provide you with the right level of washing to make your fabrics safe and hygienic for your animals.

Many individuals use a household washing machine, but this will not provide you with the programmes such as disinfection washes or the capacity you need to obtain a deep degree of cleaning, or adhere to WRAS guidelines for the disposals of fluids likely to contain harmful bacterial

## Laundry Solutions from JTM

- Get disinfection washes at high temperatures to kill superbugs as well as disinfecting washes at 30°C with our specialist Fabrix detergent.
- Help you to choose the right detergents that give good results but will not irritate your animal's skin.
- Supply large capacity washing machines that can wash larger items such as horse rugs and blankets

## Popular Appliances

Here is just a small selection of the appliances we can provide. Just click on an image to find out more.

### Miele PW6065

Great 6.5 kg capacity washing machine for vets, catteries and kennels with a thermal disinfection programme to wash fabrics at high temperatures

### Miele PW6080

Larger 8kg capacity if you need to wash larger loads. It also has along with Intelligent load control and flow meter monitors to adjust the water consumption reducing costs and saving energy

### Miele PT7136

6.5kg capacity and can be stacked on top of a washing machine if space is limited  
Comes available as vented or condenser dryer if there is no access to outside ventilation
